

Implementation Guide

for Grade 6 through Grade 12

*L*eadership

Grade 6 through Grade 12

In this component of the LASERS model, the Texas State Literacy Plan (TSLP) calls on schools to establish campus-based leadership teams to guide the school-wide efforts to improve literacy instruction. These teams include principals, instructional coaches, teachers, special educators, and others who impact literacy achievement at the school. The campus-based leadership team is responsible for facilitating the creation or revision of a data-informed plan for improving literacy instruction that is integrated with existing plans for school improvement. This plan articulates the school's goals and initiatives focused on reading and writing instruction and is informed by multiple sources of campus data, state standards, and validated research. Throughout the TSLP, the campus-based leadership team is called on to initiate and support the implementation of literacy practices outlined in the *Action Steps* and *Indicators* of each component.

In addition to establishing the campus-based leadership team and developing the data-informed plan for improving literacy instruction, the Leadership component includes *Action Steps* focused on other key areas related to leading quality literacy instruction and improvement. These include facilitating the use of a response to intervention framework, providing ongoing instructional leadership on evidence-based literacy instruction, establishing a coaching model, and facilitating communication between the school and the community.

Leadership *Action Steps*: Grades 6 through 12

- L1.** Establish a campus-based leadership team to guide efforts to improve literacy instruction.
- L2.** Facilitate the use of a response to intervention framework for providing literacy instruction.
- L3.** Create and implement a data-informed plan for improving literacy instruction.
- L4.** Provide ongoing instructional leadership on evidence-based literacy instruction.
- L5.** Establish a coaching model designed to achieve the goals of the data-informed plan for improving literacy instruction.
- L6.** Facilitate communication between school and community to support literacy.

Leadership: Grade 6 through Grade 12			
L1. Establish a campus-based leadership team to guide efforts to improve literacy instruction.			
A <i>Planning Implementation</i>	B <i>Initial Implementation</i>	C <i>Full Implementation with Fidelity</i>	D <i>Reflective Sustainability</i>
Administrators and other campus leaders plan to:	Administrators and other campus leaders begin to:	The campus-based leadership team meets regularly , allowing members to:	The campus-based leadership team has met regularly for more than a year . The campus-based leadership team continues to:
Form a campus-based leadership team made up of members with multiple perspectives representing a variety of roles, including at least one administrator.	Determine and communicate campus-based leadership team members' roles and contributions with the focus on improving literacy outcomes for students.	Contribute multiple perspectives, resources, and ideas on how to best improve literacy outcomes for students. At least one administrator is an active member of the team.	Contribute multiple perspectives, resources, and ideas on how to best improve literacy outcomes for students. Follow a process to address campus-based leadership team member turnover.
Identify data that can be used to guide efforts to improve literacy instruction.	Hold regular campus-based leadership team meetings to collect and examine data to determine campus needs, and initiate efforts to improve literacy instruction.	Collect and examine data to guide efforts to improve literacy instruction.	Collect and examine data to guide and adjust efforts to improve literacy instruction
Develop and communicate a vision for using data to improve literacy instruction.	Create policies and procedures that support school-wide data use for improved literacy	Implement policies and procedures that support school-wide data use for improved	Implement, evaluate, and adjust policies and procedures that support school-wide data use

A *ssessment*

Grade 6 through Grade 12

One of the founding principles of the Texas State Literacy Plan (TSLP) is the use of data to inform action. In the Assessment component, the *Action Steps* outline the different ways that assessment data informs instruction and guides teachers in meeting the diverse needs of all students. Campus-based leadership teams are called upon to create a detailed literacy assessment plan that articulates the timelines and instruments used to collect literacy data for key purposes. These purposes are outlined in subsequent *Action Steps*: to identify students at risk for literacy difficulties, to determine students' specific instructional needs, to monitor students' progress toward literacy goals, and to evaluate overall literacy performance.

Assessment Action Steps: Grades 6 through 12

- A1.** Create and maintain a literacy assessment plan.
- A2.** Use assessment data to identify students at risk for literacy difficulties.
- A3.** Use assessment data to determine students' specific instructional needs.
- A4.** Use appropriate assessment data to monitor students' progress toward targeted literacy goals.
- A5.** Use assessment data to evaluate students' overall literacy performance.

Assessment: Grade 6 through Grade 12			
A1. Create and maintain a literacy assessment plan.			
A <i>Planning Implementation</i>	B <i>Initial Implementation</i>	C <i>Full Implementation with Fidelity</i>	D <i>Reflective Sustainability</i>
The campus-based leadership team plans to:	Administrators and instructional staff begin to:	A literacy assessment plan is in place . Administrators and instructional staff routinely :	A literacy assessment plan has been in place for more than a year . Administrators and instructional staff continue to:
Create a plan and timeline for administering assessments, scoring and preparing data reports, and reviewing the data through systematic data meetings. Identify and allocate resources for supporting the literacy assessment plan, such as staff to organize and prepare data, funds for needed assessments, and time for data meetings.	Communicate the plan for administering assessments, scoring and preparing data reports, and reviewing the data through systematic data meetings.	Adhere to the plan for administering assessments, scoring and preparing data reports, and reviewing the data through systematic data meetings.	Adhere to the plan for administering assessments, scoring and preparing data reports, and reviewing the data through systematic data meetings. Evaluate and adjust the allocation of resources supporting the literacy assessment plan.

Agendas, minutes, and sign-in sheets

Standards-based Instruction

Grade 6 through Grade 12

Standards-based literacy instruction helps ensure all students are college and career ready. Texas literacy standards are research- and evidence-based and are set forth in three sets of standards:

- English Language Arts and Reading (ELAR) and Spanish Language Arts and Reading (SLAR) Texas Essential Knowledge and Skills (TEKS)
- English Language Proficiency Standards (ELPS)
- College and Career Readiness Standards (CCRS)

The Standards-based Instruction component outlines the key elements of an effective literacy instruction program, including providing structured opportunities to develop academic language, as well as evidence-based reading and writing instruction.

Standards-based Instruction *Action Steps*: Grades 6 through 12

SBI 1. Provide all students access to a common language arts and reading curriculum that is aligned to state standards.

SBI 2. Provide structured opportunities to develop academic language.

SBI 3. Provide evidence-based reading instruction.

SBI 4. Provide evidence-based writing instruction.

Effective Instructional Framework

Grade 6 through Grade 12

The Texas State Literacy Plan (TSLP) includes the implementation of a response to intervention (RTI) framework for literacy instruction. The goal of RTI at the secondary school level is to provide quality literacy instruction to all students and targeted support at appropriate levels of intensity when needed to close achievement gaps. The *Action Steps* of this component provide an outline for implementing effective literacy instruction based on the RTI framework, including practices that meet the diverse needs of students and empower families to be active participants in the literacy development process.

Effective Instructional Framework *Action Steps*: Grades 6 through 12

- E1.** Implement a system for using data to inform instruction and set goals for all students using the response to intervention (RTI) framework.
- E2.** Provide differentiated, evidence-based Tier I literacy instruction to all students.
- E3.** Provide evidence-based Tier II intervention to students at risk for literacy difficulties.
- E4.** Provide more intensive Tier III literacy intervention for students who do not respond adequately to Tier II instruction.
- E5.** Ensure that evidence-based practices are used to address the diverse needs of all students.
- E6.** Empower families and students to participate in the literacy development process.

Effective Instructional Framework: Grade 6 through Grade 12			
E1. Implement a system for using data to inform instruction and set goals for all students using the response to intervention (RTI) framework.			
A <i>Planning Implementation</i>	B <i>Initial Implementation</i>	C <i>Full Implementation with Fidelity</i>	D <i>Reflective Sustainability</i>

*R*eporting and Accountability

Grade 6 through Grade 12

This component supports the implementation of all other components of the Texas State Literacy Plan (TSLP). Schools are called upon to share student data as students move from grade to grade and campus to campus so that their receiving teachers can continue to provide instruction targeted to their needs. Schools examine their progress and hold themselves and their instructional staff accountable for implementing their data-informed plan for improving literacy instruction, which articulates their road map for literacy instruction and achievement.

Reporting and Accountability *Action Steps*: Grades 6 through 12

- R1.** Establish a system between sites and campuses for reporting student data to facilitate student transitions.
- R2.** Connect teacher accountability with literacy initiatives outlined in the data-informed plan for improving literacy instruction.
- R3.** Examine and communicate campus performance data and progress toward goals in the data-informed plan for improving literacy instruction.

Reporting and Accountability: Grade 6 through Grade 12			
R1. Establish a system between sites and campuses for reporting student data to facilitate student transitions.			
A <i>Planning Implementation</i>	B <i>Initial Implementation</i>	C <i>Full Implementation with Fidelity</i>	D <i>Reflective Sustainability</i>
The campus-based leadership team plans to:	Administrators begin to:	A system for reporting data to facilitate the transition of students between sites and campuses is in place . Administrators and instructional staff routinely :	A system for reporting data to facilitate the transition of students between sites and campuses has been in place for more than a year . Administrators and instructional staff continue to:
Collaborate with other sites and campuses to establish procedures for sharing student data for incoming and outgoing students.	Establish mutually agreed upon procedures for sharing student data for incoming and outgoing students.	Follow established procedures for sharing student data for incoming and outgoing students.	Share student data for incoming and outgoing students and collaborate with sending and receiving sites and campuses to evaluate the effectiveness of the data reporting procedures and improve them as needed.
Establish procedures for sharing incoming and new student data with all relevant staff members, such as English learner specialists, classroom and elective teachers, and counselors.	Ensure that staff uses incoming and new student data to inform instruction and assessment of transferred students.	Use incoming and new student data to inform instruction and assessment of transferred students.	Use incoming and new student data to inform instruction and assessment.

Reporting and Accountability: Grade 6 through Grade 12			
R1. Establish a system between sites and campuses for reporting student data to facilitate student transitions.			
Establish lines of communication with sending and receiving sites and campuses for questions and discussions related to student transition.	Inform staff of opportunities, expectations, and means for communication with sending and receiving sites and campuses to ensure the continuity of services and instruction for all students.	Communicate with sending and receiving sites and campuses, as needed, to ensure the continuity of services and instruction for all students.	Communicate with sending and receiving sites and campuses, as needed, to ensure the continuity of services and instruction for all students.
Sample Evidence			
<p>Written procedures and timelines for reporting data for students transitioning to another site or campus (end of year and throughout)</p> <p>List with contact point person for each sending and receiving campus, which might include name, title, phone, email, and address</p> <p>Agendas, minutes, and sign-in sheets from meetings with leaders/contact persons from sending and receiving sites and campuses</p>			

Reporting and Accountability: Grade 6 through Grade 12			
R2. Connect teacher accountability with literacy initiatives outlined in the data-informed plan for improving literacy instruction.			
A <i>Planning Implementation</i>	B <i>Initial Implementation</i>	C <i>Full Implementation with Fidelity</i>	D <i>Reflective Sustainability</i>
The campus-based leadership team plans to:	Administrators begin to:	The connection between teacher accountability and the literacy initiatives outlined in the data-informed plan for improving literacy instruction is in place . Administrators routinely :	The connection between teacher accountability and the literacy initiatives outlined in the data-informed plan for improving literacy instruction has been in place for more than a year . Administrators continue to:
Inform instructional staff of literacy initiatives in the data-informed plan for improving literacy instruction, as well as resources and support available for implementing them.	Explain the connection between implementation of the literacy initiatives of the data-informed plan for improving literacy instruction and individual teacher accountability.	Ensure that instructional staff clearly understands the expectations for implementing literacy initiatives outlined in the data-informed plan for improving literacy instruction.	Communicate with instructional staff about the connection between literacy initiatives and teacher accountability.
Establish a system for providing feedback to teachers on their level and quality of implementation of literacy initiatives.	Employ a system for providing feedback to teachers on their level and quality of implementation of literacy initiatives.	Provide feedback to teachers on their level and quality of implementation of literacy initiatives.	Provide feedback to teachers on literacy initiative implementation. Consider data on the level and quality of literacy initiative implementation when

R3. Examine and communicate campus performance data and progress toward goals in the data-informed plan for improving literacy instruction.			
such as grade level, ethnicity, economic status, and English language proficiency.			status, and English language proficiency. Train new staff on these procedures and guidelines.
Ensure that all relevant staff members are informed of the procedures and policies for reporting literacy performance data to the district and state.	Report literacy performance data to the district and state using appropriate procedures.	Report literacy performance data to the district and state using appropriate procedures.	Report literacy performance data to the district and state using appropriate procedures.
Identify a variety of ways to provide campus performance information that are meaningful and accessible for families and the community. Establish procedures for communicating this information.	Communicate campus performance in literacy measures to families and the community in formats that are meaningful and accessible.	Communicate campus performance in literacy measures to families and the community in formats that are meaningful and accessible.	Follow, evaluate, and improve procedures for communicating campus literacy performance to families and stakeholders.
Sample Evidence			
<p>Agendas, minutes, and sign-in sheets from data analysis meetings</p> <p>Reports and analyses of campus data</p> <p>Communication to families and other stakeholders about campus performance, such as announcements of meetings, agendas, sign-in sheets, and summaries or other handouts provided</p> <p>Posting of campus performance information, such as from newsletters, websites, emails, and articles, in jargon-free English and other languages</p>			

ustainability

Grade 6 through Grade 12

The use of the Texas State Literacy Plan (TSLP) to guide literacy instructional planning and improvement is designed to be an ongoing process rather than an event or project. Throughout the TSLP and especially in this component, schools are asked to evaluate the impact of their initiatives and to put systems in place to maintain and continue to improve literacy instruction.

Sustainability Action Steps: Grades 6 through 12

- S1.** Evaluate the level of implementation of the Texas State Literacy Plan.
- S2.** Implement systems to build and maintain capacity to provide effective literacy instruction.

Sustainability: Grade 6 through Grade 12			
S1. Evaluate the level of implementation of the Texas State Literacy Plan.			
A <i>Planning Implementation</i>	B <i>Initial Implementation</i>	C <i>Full Implementation with Fidelity</i>	
The campus-based leadership team plans to:	Administrators begin to:	The practice of evaluating the level of implementation of the TSLP is in place . Administrators and staff routinely :	
Create an <i>Implementation Map</i> for the campus.	Communicate the <i>Implementation Map</i> ratings to all campus staff.	Update the <i>Implementation Map</i> ratings at the beginning, middle, and end of year.	
Review areas of strength and need in the <i>Implementation Map</i> and prioritize <i>Action Steps</i> and <i>Indicators</i> to actively implement.	Communicate the prioritized <i>Action Step(s)</i> and <i>Indicator(s)</i> to the staff.	Collaborate to update the priorities and areas of focus for improvement in literacy instruction.	
Create a plan for implementation to address the identified <i>Action Step(s)</i> and <i>Indicator(s)</i> .	Implement the plan for working on the identified <i>Action Step(s)</i> and <i>Indicator(s)</i> .	Collaborate to assess progress on the identified <i>Action Step(s)</i> and <i>Indicator(s)</i> based on the implementation plan and then identify next steps.	

Sustainability: Grade 6 through Grade 12**S1.** Evaluate the level of implementation of the Texas State Literacy Plan.**Sample Evidence***Implementation Map* for the campus

Agenda, minutes, and sign-in sheets for meetings

Sustainability: Grade 6 through Grade 12			
S2. Implement systems to build and maintain capacity to provide effective literacy instruction.			
A <i>Planning Implementation</i>	B <i>Initial Implementation</i>	C <i>Full Implementation with Fidelity</i>	
The campus-based leadership team plans to:	Administrators and staff begin to:	Systems to build and maintain capacity to provide effective literacy instruction are in place . Administrators and instructional staff routinely :	
Identify current practices that effectively support leadership and literacy instruction.	Create systems that will support the continued and expanded use of effective leadership and literacy instruction.	Systematize practices that support effective leadership and literacy instruction, such as written procedures and policies and induction and mentoring programs.	
Establish a system to assess staff needs for support and professional development on leadership and literacy instruction.	Match resources and professional development to identified needs for support on leadership and literacy instruction.	Employ a system for providing differentiated support and professional development to build capacity for leadership and literacy instruction.	
Develop procedures to ensure ongoing availability of training and support to new staff.	Implement a system for providing ongoing training to new staff.	Ensure new staff receives needed training on an ongoing basis.	

Sustainability: Grade 6 through Grade 12			
S2. Implement systems to build and maintain capacity to provide effective literacy instruction.			
Identify and communicate to all staff the methods and timelines for evaluating literacy instruction and initiatives.	Implement a system to evaluate literacy instruction and initiatives.	Use a system for ongoing evaluation of literacy instruction and initiatives, such as the action items of the data-informed plan for improving literacy instruction.	
Identify ways for effective, grant-funded literacy practices to continue through other means after the discontinuation of grant funding.	Provide ways for effective, grant-funded literacy practices to continue through other means after the discontinuation of grant funding.	Coordinate across programs and funding sources to sustain successful literacy initiatives and practices.	
Sample Evidence			
Sustainability plans for grant-funded initiatives			
Documentation of knowledge- and resource-sharing meetings or sessions			
Integration of effective literacy practices of grant-funded initiatives into the data-informed plan for improving literacy instruction
