

Properties of Water

Watch the video at

<http://www.sumanasinc.com/webcontent/animations/content/propertiesofwater/water.html>

After viewing the video list all of the properties of water that were mentioned in the first column in the table below. In the second column write a description, definition, or explanation of what that property is and what it does. When you are finished you will have created a study sheet that will help you answer the practice questions included in this online unit.

List the properties of water	Give a description, definition, or example
